## KLEINWORTS MAY INVOKE WAR CLAUSE IN CONTRACT TO REJECT BOND PURCHASE

Civic Executive Much Perturbed by Cablegram Received  
From London House Pointing Out That  
State of War Exists.

That the city officials are alarmed over the financial situation is plainly seen from a letter which has been sent out by the commissioners to the heads

or all departments, calling for a curtailment of expenditure and asking what work may be stopped without serious damage. The letter reads as follows:

"The financial situation is such that we are called upon by our bank to carry over the required balance necessary to complete the work now in hand. If the banks refuse to do this the next question is: 'Where will the city get the money necessary to pay the balance due on this year's public improvements?'

**Statement by Mayor.** The statement given out yesterday afternoon by the mayor indicates that the situation may be quite serious, and

"The renewal of war in the Balkans suggests that it may be necessary to cut down some of the proposed expenditures for the present year. His statement of the matter reads as follows:

While the information given out is very meagre, apparently Kleinworts is taking advantage of the war scare and retrenching themselves against any crisis which may arise between now and the time when the next debenture

The mayor is in receipt of a message from the bondholders, which gives a warning by calling attention to the fact that the payments in connection with the debentures are due, August 1.

the fact that a war now is raging in Europe. By so doing the bondholders in all probability are preparing for the worst, and if conditions take an unfavorable turn prior to August 1, they

depend upon a careful revision of the current program."

ing to make the next payment to the city of Edmonton on August 1 next, the situation would be serious. The work in progress would then be well under way, and could not very well be held

up without involving a very considerable loss to the city. The engineer reports that the program is mapped out for this season is now well advanced, and that all the surface work would

be completed by the end of September at the present rate of progress. The work is now over half done and by the end of this month part of the work will have been done on all the streets that

are being improved this season. If at this point the bondholders refuse to make a third payment on the

ROBBED OF THOUSANDS

Inspector Who is Conducting the Investigation Refuses to Make any Statement in Regard to the Loss

Regina, July 8.—The local police and postal authorities are at present a power investigating the mysterious disappearance of four packages of money from the postoffice. "It is believed to have been taken while the mails were changing trains at Regina," says a "Manitoba Free Press" reporter.

The police station was all agog last evening over the report that one of the convicts had been seen hiding in the underbrush on Twenty-second street, near Alberta avenue. Inspector Shute said a convict and man were buried in the

## BONAR LAW RAPS PROPOSITION FOR HANDLING ULSTER

Says Self-government Will Not Work That Has Not Been Adopted by Consent.

REPLY MADE TO HIM BY PREMIER ASQUITH

He Says That the Point Must Not Be Ignored That Probably Four-fifths of Ireland Want What Is Proposed.

London, July 8.—Speaking in the house of commons yesterday, Bonar Law declared: "Constant reference is being made to a colonial analogy. I wish to make it to be more absurd. You will not find in any of our colonies, or in any country in the world in any form of the world's history, anything approaching what you are proposing to do with Ireland."

"Take, for instance, the self-government of Canada," Mr. Law declared. "We had no choice. We had to give Canada either local self-government or no self-government. We could not have, as has Ireland, the same place as the rest of the United Kingdom in allowing her own decisions. It meant far her self-government or no self-government. The conditions at that time were not peculiar. The provinces of Quebec and Ontario were given local self-government. In Quebec the population was largely French, largely Roman Catholic."

**Situation in Ontario.** In Ontario the population was largely of British extraction and Protestant. They had to form part of the same constitution. But at that time the population of Quebec exceeded that of Ontario, and in order to enable the system to work with an appearance of fairness, equal votes were given to the assembly was given to the Protestant minority with that given to the majority, and they tried to make it work in that way.

"From the moment the constitution was given there was constant friction and it was the existence of that friction which made it so easy to create the Canadian federation and separate those two provinces, which had been unequally yoked together."

"Suppose Sir John A. Macdonald, at the time when he made the confederation, could have got what he desired, and suppose he had got a confederate system instead of a federal system and found it was impossible to run it by one central parliament, suppose they were suggesting the central government for Canada as we are in Ireland, does any sane man suggest that under such conditions they could make Ontario and Quebec form part of the same local parliament? The thing is impossible. No one would do it."

**Premier Asquith Replies.** "Yes," pursued Mr. Law, "is the proposal which you are making with regard to Ulster. Clearly no system of self-government, with work which has not been adopted by consent."

In the course of a reply Mr. Law said that the Ulster Unionists, who possibly knew the fact that three-fourths of the population of Ireland were in favor of the British empire, had determined that they would have their own determination they have with them, as we all know, the voice of an overwhelming majority. They have, too, in fact, at the very least, the opinion of a very large proportion of the population of Great Britain and Wales. They are supported by practically the entire British empire, and the governing dominions. Under the circumstances you cannot leave it alone."

## COMMITTEE TO PROBE PURCHASE IN MONTREAL

Investigation Is To Be Made As a Result of the Purchase of the Land for the Site of the New Parliament Building.

Montreal, July 8.—The city council decided yesterday to send a special committee to look into the matter of the purchase of the land in Montreal for the site of the new parliament building. This decision was arrived at upon report by the board of control in regard to the charges recently made by Alphonse Baskin, whose assertions were to the effect that the price of 80 cents a foot had been paid by the contractors for the land, far more than the owners had received 43 cents, and for which the Baskins had been refused 32 cents a foot.

## EXECUTION OF GIBSON POSTPONED UNTIL FALL

Instructions Regarding Case Are Sent to the Sheriff of Quebec by the Department of Justice.

Ottawa, July 8.—Instructions were sent to the sheriff of Quebec by the department of justice yesterday, to postpone until the execution of Charles Gibson, the Frenchman charged with the murder of Beaudet.

The case was before the cabinet on Monday last, and the decision was arrived at. The postponement in connection with the case was suggested by Mr. Baskin, who was then in the city of Montreal.

Montreal, July 8.—Montreal is to have a police force of 1,000 men, to be paid by the city and the province. The water police force is to be a force of 100 men, to be paid by the city and the province. The water police force is to be a force of 100 men, to be paid by the city and the province.

## Papal Delegate Makes His First Visit to Edmonton

Mr. Stagni Reaches This City Early This Morning—Received by Knights of Columbus and Others, and Says Mass in St. Joachim's

Mr. Stagni, Papal delegate to Canada, arrived in the city this morning at quarter of seven o'clock with his party. There was a throng on the platform of the C.N.R. long before the delegate's train was due. Mr. M. S. Booth, Grand Knight of the local council, Knights of Columbus, and a representative body of the Knights, a large number of the clergy of the archdiocese, and prominent Catholics waited to receive the Pope's ambassador on his first visit to Edmonton. All on the platform wore the Papal colors made into a good rosette.

Immediately on the arrival of the train, the Knights present on the platform threw themselves into a grand ovation, Mr. Stagni was greeted with the two lines to his carriage. With the delegates were the lay brother who is accompanying him on his western trip, and Archbishop LeGall. The latter went last evening to Battleford to meet the delegate and accompany him to the city. Bishop Hudon, who has his headquarters in the diocese of Regina, O.M.I., Superior of the Oblate Fathers, and Rev. Father Xaver, Superior of the Franciscan Fathers, North Edmonton, were the guests the first to greet the delegate.

A very few minutes after arrival, the whole party got into autos and cars, and accompanied the delegate to St. Joachim's church, where he celebrated mass, the assisting officers being Father Grandin and Father Xaver. The delegate is a man of singularly simple bearing, with that simplicity which is in itself dignity. He wore the ordinary street costume of the clergy. This afternoon, Mr. Stagni will be driven out to St. Mary's, returning to the city tomorrow afternoon.

## STORY OF BATTLE BADLY MIXED UP WITH FICTION AND FACT

Casualties Have Undoubtedly Been Enormous But Reports Are Conflicting

GREEKS CLAIM VICTORY ALL ALONG THE LINE

While Bulgarians Say Their Army Has Been Defeated and Suffered Admit Great Loss of Life But No Defeat.

London, July 8.—It is stated in Belgrade that the Serbian casualties in the week of fighting have amounted to upwards of 15,000 killed and wounded. The British limit has been 10,000 officers and men. From the Bulgarian side there is no corresponding figure, but it is generally held in proportion. On the other hand, the information which has reached London asserts that the whole story of battles, storming, desperate resistance and so forth, is much exaggerated, and that nothing like a real battle has taken place. Between these two highly divergent statements it is no more possible to judge at the moment as to the truth of the matter than it is to discriminate between the conflicting claims of victory put forward by the two sides.

The Bulgarians maintain that they have had the best of the struggle. So far it is positively impossible to say that the British division of the Serbian army has been defeated with enormous loss in a conflict around Sofia. The Bulgarians say that the Serbian army has been defeated with enormous loss in a conflict around Sofia. The Bulgarians say that the Serbian army has been defeated with enormous loss in a conflict around Sofia.

The attitude of Turkey is becoming more clearly defined. It is tolerably certain that she means to utilize the "League of Nations" as a means of separating the Balkan states from the Balkan states. The Porte has demanded that the territory within the Balkan-Mediterranean line shall be divided by the League of Nations, and there are even rumors that an effort will be made to recover Albania from the hands of the Greeks.

## DIFFERENT POINT OF VIEW THAT AUSTRALIA OWNS OWN NAVY

Mr. Churchill Explains That Position of Admiralty Is One of Indirect Responsibility.

CANNOT ANSWER AS IF IN REGARD TO ENGLAND

Tells Sir Gilbert Parker That Information Sought Must Be Acquired Through the Colonial Secretary.

London, July 8.—In the house of commons yesterday Sir Gilbert Parker interrogated the first lord of the admiralty as to whether the Australian government had accepted Admiral Henderson's naval defence scheme. Mr. Churchill replied, however, that he could not undertake to answer questions concerning matters under the control of responsible ministers of the crown in the Dominion. General information as to the state of development of the Dominion naval services was no doubt relative to the naval defence scheme.

Mr. Churchill suggested that, if the minister only realized the work being done by the Trades and Labor Council, he would be able to proceed with the demands of the unions. Mr. Pendergast suggested that representatives of the unions should be invited to attend the meeting of the council.

The little known fact was stated by the admiral secretary, J. B. White, that the Admiralty had already a member of the Trades council, having been initiated some eighteen months ago.

Mr. Knight strongly opposed the suggestion that the ministerial delegates should be invited to proceed. When they had anything to gain for themselves, said Mr. Knight, the ministers would not be able to do so. He said that the labor had spoken enough, but under ordinary circumstances they would say more.

When a ministerial delegate was asked to attend the meeting of the Trades council, he was told that the ministerial delegates were not to be invited to attend the meeting of the Trades council.

Amount of Timber in the North Makes the Industrial Possibilities of That Country Immense, Declare Speakers.

Winnipeg, July 8.—The fifteenth convention of the Canadian Forestry Association opened in the Industrial Bureau here last evening with an initial meeting of some 200 people, who listened to eloquent addresses from leading foresters, men of the government and the city, and the replies by the officers of the assembly association.

The chair was taken by Sir William Whyte, who spoke briefly of the timeliness of the convention in the city of the world's forestry. He urged the necessity for vigorous forward action in Canada today.

Mr. J. H. Campbell, Dominion director of forestry, characterized the forestry branch of the department of the interior during the course of an address which he delivered at the Canadian Club luncheon in Manitoba hall yesterday afternoon.

"A large sum of money will be required to do the forests here," Mr. Campbell said. "There are vast opportunities waiting in this new addition which has recently been added to the northern portion of Manitoba. There is not a great deal of heavy timber in this province, but it is very valuable."

"A small timber, coupled with our wood pulp industry, will form a combination which augurs well for the development of this country," said Mr. Campbell. "The forestry branch of the department of the interior during the course of an address which he delivered at the Canadian Club luncheon in Manitoba hall yesterday afternoon."

"The greatest possible value," Mr. Campbell said, "is the proper conservation of the great forest resources, which is the greatest possible value that can be secured. It is not to be left to chance, but that something of great value will be accomplished," said his Worship.

Mr. Grant, vice-president of the association, expressed the confidence that the meeting of the association would prove a most interesting and profitable one to all who attended.

# SASKATCHEWAN CROPS REPORTED TO BE GOOD

Little Damage Has Been Noticed From Rust or Hail—May Checked by Short, Dry Spell in Recovering

Regina, July 8.—Reports by telegraph from special correspondents of the Saskatchewan department of agriculture report that the crops throughout the province are in excellent condition.

Rain has fallen plentifully throughout the province in the last week, although insufficient for some districts. Rain is still needed at Lloydminster.

The general condition of crops on summer following is much better than on last year's stubble is thin and rather short, fall and spring plowing did not receive moisture in time to produce best results. The average height of the wheat crop is from 18 to 23 inches and from three to five percent is now in the head or shot blade, and is looking strong and healthy.

Little damage has been noticed from rust and also from hail. The district around Keeler was visited by a bad hail storm the last week in June. The hay crop which was checked by the hot, dry spell in June is now recovered owing to the rainy weather in the last week.

## \$170,000 FOR RELIEF OF STRICKEN FAMILIES

Manitoba House of Commons Committee on Distribution of Relief to Those Who Lost Lives

Ottawa, July 8.—The committee of the Manitoba House of Commons, which now amounts to \$170,000, has decided to appropriate \$170,000 for the relief of the families of those who lost their lives in the Polar expedition. Lady Scott will receive \$12,500; her son, Mr. J. H. Scott, \$12,500; Captain Scott's mother and two sisters, \$30,000; Mrs. Wilson, widow of Dr. Edward A. Wilson, \$10,000; Mrs. Bowers, widow of Lieut. H. B. Bowers, and her two daughters, \$25,000; Mrs. Evans, widow of Petty Officer Evans, and her three children, \$6,250.

Several minor sums will also be awarded to others connected with the expedition. Any additional funds will be allotted as follows: For the publication of scientific results of the expedition, \$87,500; future polar researches, \$80,000; to make good a deficiency in the cost of the expedition, \$25,500; for a memorial to the dead, \$89,000.

## HORSE STEALING AND SMUGGLING SUSPECTED

Believe that the Animals Came from Montana—One Man Arrested and Another Is Being Sought

Leithbridge, July 8.—What will undoubtedly develop into a wholesale horse stealing and smuggling case, was brought to a head early yesterday, when a bunch of eleven horses and a mare were seized, and James Chisholm was arrested by the mounted police. An accomplice, Jim Gerrett, alias Jim Coyne, is being searched for.

The entire south country, from Leithbridge to Cardston and Coaldale, is surrounded by special constables and mounted police, and his capture is looked for soon.

The horses are all branded R.G. on the left shoulder and cheek, and it is thought that they were stolen from near Cutback, Montana, and that the original theft consisted of probably 50 head.

## ANOTHER IS DROWNED IN THE CAROL RIVER

Owing to the Darkness, Efforts of Companion Were Fruitless to Save Victim—One Who Fell From Boat

The Pax, Man., July 8.—Another drowning accident happened in the Carol river, in what is known as the Sopomack channel, when W. H. Moser, a Hudson's Bay construction company's man, 29 years old, and unmarried, fell overboard a large salubrious night.

Owing to the darkness, the efforts of the other man in the outfit to save him proved of no avail.

The local R.N.W.M.P. went out to search for the body, but have so far been unable to find it.

Minister of Militia Authorizes Announcement for Next Fall in Regard to the Royal Institution

Ottawa, July 8.—As considerable anxiety has been evinced by parents and others interested in the recent examination of candidates for entrance to the Royal Military College, 1913, the minister of militia has authorized the following statement:

"Although there are only 41 places vacant at the Royal Military College for students entering next September in view of the near completion of the new dormitory it has been decided to increase to the full list. It is deemed to be unfair under circumstances not to admit all who pass, thus the total 40 who passed the examination out of the 120 candidates who tried it will be admitted to the college upon its opening in September next."

## BANDITS HOLD UP COOK, BUT TIP HIM LIBERALLY

After Getting a Supply of Food at the point of a Gun Two Thugs Make off Into Woods and Escape

Nanaimo, B. C., July 8.—After holding up the Chinese cook at the Moore and Patrick's camp at Pritchard's and getting a supply of food at the point of the gun, the two thieves who last week robbed the United States messengers near Cumberland of \$2,000, threw down between \$14 and \$16 on the cook's table with the words: "Now beat it and be quick about it or we will make you sorry."

Then they disappeared in the woods. The woods around Cumberland and Union Bay are full of policemen and posse were out all night on Saturday, Sunday and last night looking for the holdup men.

NO CAUSE FOR DISQUIET  
IN THE FINANCIAL SITUATION.

While the notification from the Kleinworths that they may have to exercise the right under the war clause of their contract and refuse to carry out the purchase of the remainder of the city bonds comes at a time when it will have a disquieting effect, it does not necessarily follow that their notification is final, or that they will not be able to fulfill the contract as per the original arrangement.

The original agreement was for the purchase from the city of \$11,000,000 worth of bonds, on four payments of 25 percent each. Two of these payments have already been made. The third is due in August. Kleinworths, of course, like every other bond house, are brokers, and should the financial situation become so acute in London that they are unable to place the Edmonton loan among their clients they, necessarily, will be unable to meet their part of the engagement for the remaining 50 per cent of the loan which the city required in order to carry out its full programme.

There is this ray of sunshine about the situation, however, that the powers in Europe have arranged, with the single exception of Austria, to localize the Balkan war and to leave the countries involved to fight it out among themselves. Should Austria come into this arrangement there is practically no probability that Europe can become involved in a general war, in which case the bond market should be very much improved within the next 30 or 60 days, instead of the situation becoming more acute. That an improvement is looked for is evident by the stock market reports, which indicate very clearly that no break in prices worthy of mention followed the declaration of war by Serbia, Montenegro and Greece. Had the financial men believed that a general war was impending the consequences of such an outcome would have been discounted upon the stock market and the break in the price of securities would have occurred at least a week ago.

Should the Kleinworths fail, however, to take up the balance of the bonds, Edmontonians will have the consolation that their city is in first class condition to meet the situation. It will mean, of course, that quite a large amount of work which was contemplated for this year cannot be carried out, and such non-revenue extensions as paving, sidewalk construction, intensive lighting, and other work of a similar nature, will have to be curtailed for the present, but the city already has been able to do a great deal more in this line than any other city in Canada this year, and compared to such cities as Saskatoon, which has not been able to get a dollar of its debentures sold, or Vancouver, which is financing its improvements entirely upon treasury warrants, or Calgary, which has managed to place only a couple of millions, Edmonton's situation has been fortunate indeed.

In another respect it is the most fortunate of the cities of Canada, and that is in the respect that its utilities are now all upon a revenue-producing basis. The electric department is making a steady surplus of \$10,000 a month, or thereabout, and has a surplus piled up ahead of it of approximately \$150,000, an amount sufficient to provide for any immediate or pressing requirements in the nature of extensions necessary to meet the demands of the present summer and next winter, and to relieve it of any immediate inconvenience through the tightness of the money market. The street railway has just arrived at the fortunate position that it is overcoming its deficit. With the completion of the Spruce and Nelson loop-line extensions, the money for which was provided long ago and which, as the commissioners informed the council recently, is at present available for this purpose, the street railway department should be able to meet all obligations every month out of revenue, without any further deficit. The telephone has always paid its way, and has at present a surplus, a part of which has already been devoted to capital expenditure and more of which may be used to meet the most pressing requirements. The waterworks department has been the most difficult proposition, but with the installation of meters to prevent the wasting of water and with other economies contemplated this department may also be depended upon to give a good account of itself from this time forward.

In fact, the situation is simply that there is no large work arranged for that the citizens cannot get along without for a while, and should the bond buyers fail to fulfill their agreement for the purchase the only effect will be that some of the work will be delayed for a time.

In the present juncture all loyal Edmontonians will agree that, whatever the outcome, Mayor Short has done all that could have been expected of him in the matter of placing the bonds. In fact, it must be admitted that his placing of the bonds at a time when other cities were unable to do the same is the best thing that he has done this year and should the Kleinworths fail to make good upon the balance of the purchase the fault will not lie with the mayor or with the administration, but is due entirely to circumstances over which they have had no manner of control.

THE PULP WOOD RESOURCES  
OF WESTERN CANADA.

Probably the most interesting commentary upon the natural resources of the west which has yet been made is to be found in the circumstance that in the very opening speech of the Forestry Association convention in which the Lieutenant-governor of Manitoba welcomes the association to the prairie capital the outstanding feature of his address is the value of the pulpwood resources of western Canada.

The Lieutenant-governor of Manitoba is thoroughly acquainted with the lumber situation himself, and he knows. The fact that he made it practically the burden of his speech shows clearly what he thinks of the pulpwood resources, and indicates how largely this resource looms in the minds of men who have been closely following the situation. The Dominion of Canada owns thirty-eight per cent of the world's supply of pulp wood, yet it is only producing four per cent of the world's paper.

The United States has eighteen per cent of the world's supply of pulp wood and makes forty-two per cent of the paper. At the present rate of consumption the pulp wood resources of United States must be exhausted in the very near future. The supply must come from Canada. Recognizing this, United States has already taken the duty off pulp, pulp wood, and paper, and the immense expansion of the business of manufacturing paper in Canada is due to commerce in the immediate future.

Alberta, Saskatchewan and Manitoba contain a very large proportion of the thirty-eight per cent of the pulp wood of the world which is estimated to exist in Canada. The upper reaches of the Saskatchewan, the Peace, Pine and Smoky and enormous areas of the lower Athabasca and Mackenzie are natural pulp reserves capable of supplying the world at the present rate of consumption for cen-

turies to come. That this consumption will be tremendously increased, however, is obvious when it is taken into consideration that the present use is limited to paper and comparatively few other articles, such as utensils, inside finish for buildings, etc., whereas its future use will be extended to house-building and practically every other purpose to which lumber is now applied.

By the failure of the Borden government to hand over to the provinces the resources promised them previous to the last election, Alberta is stopped from devoting to this asset the attention its value demands, and any effort to secure the establishment of pulp mills in this province must be left to the Dominion authorities who appear to be more possessed with the necessity for taking care of their friends than for taking care of the country.

MUNICIPAL PAVING  
PAYS IN CALGARY

While Edmonton is worrying about an eight hundred thousand dollar miscalculation in the paving estimates, Calgary is doing its own paving with a municipal paving plant and doing it by saving \$1,000 a day on the operation. Calgary has let no contracts whatever this year. The municipal plant is laying paving of the highest class for \$2.10 a yard, which is a saving to that city of from 50 cents to 80 cents a yard.

A municipal paving should pay Edmonton as well as Calgary. The installation of a municipal plant might help materially to adjust the deficit in the amount appropriated by permitting the city to get an additional yard of paving in every five or six for the same price it is paying now.

TODAY IN  
DOMINION HISTORY

This is an important date in the history of British Columbia, for it was on July 8, 1858, just 55 years ago to-day, that Sir Edward Bulwer Lytton, secretary of state for the colonies, brought before the British house of commons a bill constituting the colony of British Columbia. This measure, which became a law the following month, provided for the incorporation into the colony of the districts formerly known by the names Port George, New Caledonia, New Georgia, New Norfolk, and New Cornwall, and lying between the Rocky mountains and the Pacific ocean. The southern boundary was the 49th parallel, and the northern limits were marked by Simpson's river and the Finlay branch of the Peace River. Queen Charlotte Island was included within the limits of the colony, and a clause of the bill conferred the power to unite the colonies of Columbia and Vancouver "when circumstances shall demand." This was done in 1866, and five years later British Columbia became a Province of the Dominion. The formation of the colony in 1858 was consequent upon the discovery of gold, and the influx of population that naturally followed. The gold rush from California commenced early in 1858; and before the close of the year the new colony had a population that has been estimated at from 30,000 to 50,000.

One hundred years ago today a force of British and Indians defeated an American force at the battle of Fort George. Twenty-nine Americans were killed or wounded, and only a corporal and a private succeeded in getting back to the fort.

## THE HUMAN PROCESSION

ROCKEFELLER, BEGINNING 75TH YEAR TODAY, HOPES TO BE 100.

John Davison Rockefeller begins his seventy-fifth year today, but, despite the weight of years and wealth, he is not bowed down by the burden of weary life, and has often expressed the hope that he may live to pass the century mark. The birthday of the world's richest man is always marked by a series of religious observances of congratulation from prominent men all over Europe and America.

It has been previously reported that the oil magnate intends to spend his last years in England, on an estate in Devonshire, but this has been categorically denied by Mr. Rockefeller, who asserts that he has never dreamed of such a thing.

"The good old Stars and Stripes are good enough for me," he is reported to have said. "God forbid that I should be good old American dollars has accumulated under good old Stars and Stripes."

Mr. Rockefeller has often explained his system for securing his wealth, but, as there appears to be about the usual number of poor people in these parts, the secret must have escaped their attention. Here is John D.'s recipe for getting rich:

"Save your pennies."

There's the entire secret, told in simple words of one and two syllables. After this there is absolutely no excuse for poverty.

The recipe was first published less than a year ago, but it has already started many on the road to affluence. One little girl, it is reported, has already saved 100,000 pennies, and she has to do now is to save 99,900, 99,800 more pennies to be as rich as Rockefeller.

It's the easiest thing in the world to save a billion dollars, the estimated amount of Mr. Rockefeller's income; now that he has explained the secret. Indeed, it is so simple that the wonder is we are not all billionaires.

Positively, all that one has to do to accumulate a billion dollars, which is 100,000,000 cents, is to "save the pennies" at the rate of 3,840 a minute, 24 hours a day, for three score years and a ten.

Of course, most of us won't do that. We squander our pennies on cigars, and ice cream sodas, and food, and beer, and clothes, and educating our children, and such things, and at the end of the year we find we've got nothing. Absolutely nothing.

If Mr. Rockefeller realizes his ambition to live to be 100, and if he keeps on saving the pennies at the present rate, he will, on his hundredth birthday, have:

Well, he will have nearly everything, as nearly as I can figure it.

Benjamin La Foe Winchell, former president and now receiver of the St. Louis and San Francisco railway, was born at Palmyra, Mo., 55 years ago today. He commenced his railroad career as an engine driver in the Burlington shops at Hannibal, Mo., and worked his way up to the presidency of the Rock Island and the Price systems.

The Rt. Hon. Alexander M. Carleton, long the head of the great Canadian and Wolf shipbuilding firm of Belfast, and a recent American visitor, was born at Balymore, county Antrim, 59 years ago today. He is married and Belfast shipbuilding plant as an apprentice at the age of 16.

## NEW TERRITORY CONTAINS GOOD FARMING LANDS

From Abitibi to Winnipeg Is  
Traveled by Representa-  
tives of Dominion.

CLAY BELT IS COUNTED  
—RIVALING OLD ONTARIO

Report Is Made on Country  
Opened by the G. T. P.—  
Special Engineering Diffi-  
culties in Building Road.

Winnipeg, July 8.—Making the trip by "Special" under conditions that at times that were distinctly arduous, two representatives of the Dominion department of agriculture, Mr. J. H. Grosdale, P. E. agricultural director of experimental farms, and George H. Clark, B. S. A., seeds commissioner, arrived in Winnipeg after a journey covering ten days along the line of the National transcontinental railway between Abitibi and Winnipeg, studying the agricultural possibilities of this new territory that is being made available for settlement by the Grand Trunk Pacific.

While their report will not be made public in full until it has passed through the proper official channels, sufficient was gathered by a reporter of the Western Associated Press to establish the fact that a very large proportion of this new territory is good agricultural land.

The "clay belt" along the railway line commences about 150 miles east of Cochrane and extends westward as far as English river near a point, a divisional point on the G. T. P., a distance of over 400 miles. The general character of the land throughout this belt is fairly uniform.

The country is drained by deeply cut river beds at intervals of from 20 to 25 miles. Between the rivers which flow northward, the surface in general is slightly undulating. The highest points seldom rising to more than 40 feet above, and the lowest stretches 10 feet below the level of the railway grade.

West of the clay belt between Grand and Superior Junction the country is characterized by rocky and gravelly hills interspersed with sandy intervals occasional outcrops of clay and an abundance of small lakes and streams. A very small percentage of this country being suitable for agriculture.

**Land Is Classified.**  
For the purpose of recording convenient references each inter-river section as viewed along the transcontinental railway from a point 10 miles east of Abitibi river, 275 miles west of Orant, was classified as either country that should be considered excellent, good, fair, and inferior from the viewpoint of the settler, the percentage being roughly determined by the relative mileage of each that was traversed along the railway line.

Undulating clay land naturally well drained and covered with a healthy growth of mixed wood was considered as excellent for agricultural purposes. Undulating to flat areas having a thin layer of peat in irregular patches, and with vigorous growth of mixed woods, was rated as good.

This includes land that in the process of clearing may require some kind of ground burning to get rid of patches of this peat before the soil will be in the best condition for cereal growing. The clay below the light covering of peat being of the best and naturally well drained as soon as the forest is removed.

Flat, spruce area showing a strong healthy forest growth over a peaty surface well, making not more than about 18 inches thick, but where the railway construction crosses show that the water is easily carried off once the ditches are constructed, was classed as fair. This includes land that offers little attraction to the settler. When, however, the forest growth is removed and the surface of peat is burned the underlying clay will be found to be in no way inferior.

**Compared With Ontario.**  
By this method of classification the land, the average of the 275 miles of the clay belt traversed, showed 21 per cent. to be excellent, 39 per cent. good and 2 per cent. fair, leaving a balance of 11 per cent. that could scarcely be considered as suitable for agriculture.

Messrs. Clarke and Grosdale agreed on the opinion that, apart from the conditions as to kinds of crops because of the more northerly climate, the clay belt as a whole is not inferior to the culture to the clay districts of old Ontario.

As to the condition of the road itself, Mr. Clark says that special are being rapidly filled in, but many special engineering difficulties are presented and fold at one point the whole grade had slipped away 40 feet, leaving a chasm and the steel and ties in suspension.

Slides of this sort tend to delay the work and add to its cost, but the road will be handling grain to Cochrane this fall. Mr. Clark is anxious as one of the judges here in the road and seed cleaning competition at Winnipeg exhibition this week, and after that inspect the department of agriculture in Regina and Calgary, while Mr. Grosdale has already gone west to Cochrane to make with Angus McKay, of Indian Head, Sask., who has been recently promoted as general superintendent of western experimental farms, a general inspection of these for the Ottawa department.

## BANK FAILURES ALLEGED DUE TO BAD MANAGEMENT

(Continued from Page 1.)

The same methods as adopted yesterday was pursued today.

**Notice is Required.**

All depositors were paid \$50 at once, and notices of \$50, \$25 and \$10 for large amounts were required.

With the assurance of several millions in cash and quick assets on hand, the run on this bank is not looked upon as likely to result seriously. In fact, bankers with no immediate connections with the Kuhn institutions assert that it will weather the situation and make all payments as demanded, under the conditions imposed with the result that at the expiration of the time of notice for withdrawal of the large amounts, the public confidence will be restored.

About the First-Second National bank this morning large groups of foreigners were gathered outside the doors of the foreign banking departments the notice of the closing by the government which had been posted in 14 different languages.

**New Officers Elected.**

A meeting of the clearing house association is called for later in the day at which every member has been urged to be present. No information has been given of the purpose of the meeting, but some statement is reported regarding the election of the First-Second National bank.

J. S. and W. S. Kuhn this morning meeting the president and vice-president respectively of the Pittsburgh bank for savings, at which a run is being directed. The following officers were elected to take charge of the bank: W. J. Jones, president; L. M. Plummer, vice-president; A. N. Voegtli, secretary and treasurer.

**Bank Formally Closed.**

Metropolitan, Pa., July 8.—The First National bank of Mekeop, controlled by J. S. and W. S. Kuhn, which was closed by the directors yesterday, today was formally closed by the order of the committee of the currency at Washington.

**Government Aid Declined.**

It developed that the treasury department yesterday offered the solvent Pittsburgh bank \$5,000,000 government deposits to meet an emergency, but that offer was declined because the banks were in a position to meet the situation.

The entire capital and surplus of the First-Second amounting to \$5,000,000 has already been secured, but officers of the bank have assured the government that depositors will be paid in full for nearly all.

**Members of the clearing house committee of Pittsburgh,** said Mr. Williams, "have assured the government that the banking situation is now well in hand, and that they believe that the clearing house association will be able to prevent any further trouble."

## HUNGER EXPECTED TO AID MEXICAN REBELS

Nogales, Arizona, July 8.—Starvation and artillery are the forces upon which the constitutionalists are depending to obtain the ultimate surrender of the Federal army, according to General Juan C. Cabral, of the insurgent forces, who with his staff, and thousands of men, were today in the town of Nogales, allied with the rebels, reached Nogales late last night from the beleaguered gulf port, where they had been expected to capitulate at any hour, as the constitutionalists were doing deadly work with their artillery and were aided in their attack by hunger of the federal forces, supplies of provisions and munitions were exhausted.

Cabral declared that the report that federal bombards at Guzman had joined the constitutionalists was a mistake. "The constitutionalists' officer left today for Canada."

## THE PASSENGERS AND THE CREW ARE INJURED

Interurban Car Entering Vancouver Jumps Track and Causes Injuries to Building, Hurt and Damages to Property.

Vancouver, July 8.—Two passengers as well as the motorman and the conductor of an interurban car between this city and Westminster were seriously injured, when the car crashed into a building at the corner of Vancouver street.

The car was running into the city when it jumped the tracks and into the building. The car was practically wrecked.

## SOUTH SIDE WITHOUT ANY WATER SUPPLY

Intake is Plugged Up—Hope This Pressure at Least for Domestic Purposes Will Be Tomorrow.

Today the south side has neither clean nor dirty water. The intake is plugged up as the water supply is off. Every effort is being made to get the intake cleared out and the water turned on again at the earliest possible moment.

While this work is being done, advantage is being taken of the shut down of the water supply to make repairs to the south side pumping plant which is in a very bad condition.

It is hoped that the repairs will be completed for the needs of domestic purposes will be resumed tomorrow.

**CLOSES WEDNESDAY AFTERNOONS.**

## WINNIPEG PRICES SHOW WEAKNESS

Reason is Splendid Crop Weather Now Prevailing and Continued Liquidation.

Winnipeg, July 8.—Under the splendid crop weather and continued liquidation, prices of grain and other commodities are showing weakness. Flat held round about yesterday's prices.

Liverpool market closed 1/4 lower and there is very little cash or export business being transacted.

## REGINA CLIMBS STEP UPWARDS

Defeats Medicine Hat by Score of Two to One and Is Now In Second Place in League

Regina, July 8.—Regina supplanted Medicine Hat on the second rung of the new Western Canada League series this evening by defeating the visitors in a well-contested game. After the first inning, when the Hatters scored one run, Hankin was invaluable and was given all-right support. The third-inning delivery of a full article of ball, Regina's first run was a gift, but the second was earned. Dugan, one of the new men secured from Saskatoon, being there in the pinch with a safe hit. Score: R. H. E. Medicine Hat 100 000 0—1 8 3 Regina 000 100 01—2 5 3 Batteries: Schneider and Bliss; Hankin and Baker.

**CANADIAN BOAT WINS**  
Waterloo, N. Y., July 8.—The Niagara, representing the Royal Canadian Yacht Club of Toronto, won the first of the George Cup races in the evening events of the L.Y.R.A. Regatta at Brimley Cove yesterday. The Niagara finished one minute and twenty seconds ahead of the Niagara, representing the Crescent Yacht Club of Waterloo.

**CANADIAN BOWLERS**  
London, July 8.—At Glasgow the Canadian bowlers played a combination Wellerford Corporation and Glasgow Association bowlers' team, the score being as follows: R. H. E. 100 000 0—1 8 3 Regina 000 100 01—2 5 3 Batteries: Schneider and Bliss; Hankin and Baker.

## Birds Drop Two More Games by Big Scores

Umpire McDonald Officiated in His Usual Manner and Birds Took Exception to His Decisions—Scores Were: First Game 10 to 8; Second Game 5 to 1.

Edmonton, July 8.—Edmonton Gray Birds dropped two games to the locals here yesterday by scores of 10-8 and 5-1. The afternoon game was a very "punch" sort of an exhibition, when the Birds knocked Lefty Conannon, Moose Jaw's new pitcher, off the mound in five and two third innings. Northrup, however, came to the rescue and in the third inning he did what he had to do to hit into a double play. He pitched the Birds a hit while he did not. Birdsoff was lunched up for 15 safeties by Weeda's heavy hitting brigade.

The evening game was a swell exhibition, but was marred by the kicking of the Edmonton players, who got in bad with the fans. It took two hours and 15 minutes to play seven and a half innings, which delay was caused by the overrunning rumpus which was kicked up by Redmond and his men over the decisions of Umpire McDonald. With the exception of two decisions both in the second game, and neither of which figured in the scoring, McDonald looked like a real umpire and did his work well. However, the Birds have apparently not yet forgotten that

## Uhlman Fails to Lower His Former Mile Mark

Grand Circuit Opens at North Randall Track with Uhlman Going Good—Strong Wind Held the Big Black Back—All the Races Were Good.

Cleveland, July 8.—Almost perfect racing weather and thousands of racing enthusiasts helped to open successfully the first meeting of the grand circuit at North Randall track. As is usual on Tavern "Streak" day, when the millionaire owners play their own game, the grand stand was crowded largely with society people.

Uhlman, the world's champion, failed to break the track record of 1:58 2/5, established by himself three years ago, going the mile in 1:59 1/4. Quite a strong breeze impeded the great black gelding.

**The Summary**  
The Edwina Stakes, 2 1/2 miles; three heats; purse \$3,000.—Del Ray B. H. (by Nutwood Wilkes), Cox, won; Frank Boush, Jr., B. G. (by Frank Bogash), Murphy, second; Rex Heart 3-4.

Trial to lower track record of 1:58 3/4, set by Uhlman three years ago—Uhlman (Doc Towner, driver, time by quarters): 29 3/4, 59 1/2, 1:29 1/4, 1:59 1/4.

**'SOONA LOSES TO SCOTCHMEN**  
Until the Last Ten Minutes the Game as Scoreless—Teams Are Evenly Matched.

In a closely contested game at Diamond Park last night the Sons of Scotland defeated the 'Soona team by a score of one to nothing. During the first half and for the greater part of the second half the teams played an evenly matched game. The score made by the Sons of Scotland came in the last ten minutes before the final whistle. It was a shot from the right wing and just went inside the post. There were a number of people standing beside the post and the ball rebounded from them into the field again, making the umpire think it had not gone in. He was about to award a goal when the Sons protested and after consulting with the linesman he gave it a goal. Then the 'Soona team objected. They claimed that even had it gone in it was an offside goal. However the goal stands.

The game was a fairly good one. The teams are evenly matched and both are prone to indulge in too much mugging. The shooting of the 'Soona eleven was poor. They had two splendid opportunities and lost them through poor shooting. The defense of the Sons is not quite as strong as that of their opponents.

The contest was watched by a good crowd of people.

The teams lined up as follows:  
'Soona: T. Woods, Sison, Mungie, DeBour, Price, Hawkins, Fawcett, Forrester, Topping, Jeffrey and P. Price.

**PHILADELPHIA CRICKET**  
Philadelphia, July 8.—Playing twelve men to a side, the all-Montreal cricketers and the Moysean Cricket Club began a two days' cricket match yesterday. The local players went to bat first and scored 201 runs in their first innings. The Canadians had scored 180 runs for the loss of nine wickets when stumps were drawn for the day.

## WEAK BATTING LOSSES CRICKET GAME FOR BAY

Hudson Bay Team Had Victory in Fingers But Allowed It to Slip Away.

Against the Hudson's Bay C.C. on Saturday the Strathcona C.C. played very much the same class of cricket as on the previous Saturday night. The game at one time appearing to be hopelessly lost, but in the end a victory was recorded for the South Side team.

The Bay travelled to the South Side Athletic Grounds to avenge their only defeat of the season, but after having the game well in hand, allowed victory to slip from their grasp, owing chiefly to some very weak batting. After disposing of Strathcona for 71 (for whom C. Spitznagel, top scorer of 27), the Bay, after having 40 runs on the board with only one wicket down, could not stop them. The winning batsmen were Tuffey and Van Valzen, who scored 13 runs while Van Valzen took four for 20.

## NORTH EDMONTON STILL WINNING

Defeat West Edmonton by Ten to Three—Westerners go East-End in Special Train.

North Edmonton had a visit from the West Edmonton Baseball Club on Friday evening last, and a very pleasant game defeated them by the score of 10 to 3.

West Edmonton travelled in style and came over on a special train, which arrived in North Edmonton about 7:30 o'clock.

The O.T.P. were all dressed, ready for the game, and had a fine crowd of supporters with them who did all they could with the cheerful staff to help their pets when they faced the great Murphy, who pitched a grand game for the North Edmonton boys, and had the O.T.P. sipping all the time.

All the North Edmonton team were on the job all the time, while for the visitors Treas and Harris had not the blindest idea of what was going on.

**The lineup:**  
North Edmonton: O'Doherty, 1st; Wagnau, 2nd; State, 3rd; Ogle, 4th; Stanhaugh, 5th; Lett, 6th; Dever, 7th; Sheathley, 8th; Murphy, 9th.  
West Edmonton: Brown, 1st; Metcalfe, 2nd; Treason, 3rd; Harris, 4th; Treason, 5th; McKinnon, 6th; Cummings, 7th; Campbell, 8th; Treasdale, 9th.

**Score:**

## B. C. LACROSSE LEAGUE IS FALLING TO PIECES

Con Jones Says he Will Never Play Against Westminster Again or Have Anything to do With Them—Many Good Players Will Have to Go to Work.

Vancouver, July 8.—As a result of Saturday's fiasco at Hastings Park, when Westminster Lacrosse team liberally walked off the field and defaulted the scheduled game to Vancouver, there will be no more games here (west of the club) as at present controlled. Con Jones, president of the Vancouver Lacrosse club, so announced this morning, after thinking the situation over since Saturday.

This means that the British Columbia Lacrosse Association will be disrupted and the Vancouver and Westminster clubs will separate. Whether this means the end of professional lacrosse on the coast is another question. Victoria enthusiasts are talking of getting together a team to play out the season against the Vancouver club, but so far nothing has come of this. Westminster has in hand a project to get another club in this city, but after the manner in which the Royals have

**W.C.C. TO GO EAST**  
Winipeg, July 8.—The Wanderers Cricket Club has decided to go to Toronto to try again for the Ross Robertson Cup, which is emblematic of the cricket championship of Canada. The dates of the Wanderers by the trustees are August 15 and 16, and the match will be played on Toronto grounds.

The team will leave Winnipeg on Monday, August 11th, and will travel via the Great Lakes.

## ANTIPODEAN PLAYERS DEFEAT ALL AMERICA

Team Chosen From Canadian and American Bowlers Goes Down to Defeat Before Australia Given a Play in Fine Form.

Philadelphia, July 8.—The Australasian cricketers defeated the representatives of the United States and Canada in the test match completed yesterday on the grounds of the Germantown Cricket Club, by one wicket and 492 runs. The visitors declared their second innings closed after scoring 142 runs for a total of nine wickets. W. Barclay (who was not out) scoring 112 runs, made the highest score out of the defeated side. A. Hookings, the New York player, was bowled by Crawford for a total of several runs. The U.S. and Canada players were bowled by Barclay when his total was seven. P. C. Goodman, of Montreal, scored four runs. The Australasian had scored 233 in their first innings last week and the U.S. and Canada team 99.

## Cuba's crooked coast-line

fixes forever the limits in which men can grow tobacco with the tantalizing tropic "lana" that smokers have learned to expect from "Clear Havana."

Nature's secret formula is hidden in the rich brown loam, the salt-laden air, and the growth-fostering sunshine of this one little island. She guards it more jealously than the Spanish monks keep the secret of their cordials.

Therefore, smokers must always look to Cuba for the keenest enjoyment that their tobacco-taste can give.

Every palate-pleasure to be expected from this famous Cuban leaf, is found in

## Clear Havana

They are made from the choicest leaf in the famous Vuelta Abajo district, selected at the plantations by Webster's own buyers—imported into Canada in the leaf (undisturbed) and made into cigars in a clean, sun-lit Canadian factory.

If you do not know them, pay a quarter for an introduction, and let the first one give you a new and delightful definition of "Clear Havana."

Wherever good cigars are sold, they have this brand in various shapes and sizes.

Popular "Brevia" shape sells at two-for-a-quarter.

## DICKIE FIRST CONTEST

Ex-Bird Playing With Calgary Is in Close Game—Errors Partly Responsible

Saskatoon, July 8.—Gosly errors on the part of the Saskatoon team gave Calgary a win by a 2 to 1 score here today. The Quakers outdid the visitors, but failed to land the wallop when they meant runs. Churchill pitched great ball, but got poor support in the field. The Quakers were tendered an ovation by the fans and Bill Hurley was repeatedly cheered. There was one of the biggest crowds of the season in attendance.

**The score:**  
Calgary ..... 000 010 010—2 3 8  
Saskatoon ..... 100 000 0—1 7 4  
Batteries: Dickinson and Roche; Churchill and Walters.
